Introduction and Missions

ORACLE Token

A project base on Binance Smart Chain handled by experienced team.

What is ORACLE Token?

Oracle Token is a new cryptocurrency project with an unique features with it. We bring the unique system utility to attracting new investors.

Why I should have ORACLE?

ORACLE giving USDT for every ORACLE token holders. %5 rewards is granted.

How safe my ORACLE investments?

We decide to renounce the SMC and verifying the code, fair and stealth launching. NO AIRDROP. Its fully FAIR to all the investors.

What is ORACLE Token missions?

Grow together with the community and bring back a great market on Binance Smart Chain network.

Features

For every active user transaction a 4% \$USDT reward is granted to holders, decentralized wallets only, fostering a healthy distributed network and community usage. The more \$ORACLE is actively used, the more rewards are granted!

Marketing Plan

Without any doubt, we have devised an extensive marketing strategy that is set to create a massive impact

LIQUIDITY LOCKED

Nobody has access to the liquidity tokens including the developers.

RENOUNCED OWNERSHIP

We have decided to Renounce Ownership of SMC and team didnt hold tokens in the end

State of Token

ORACLE is a reward token project which mean investors will get their value of investments by just holding. Reward will be in USDT BEP20. Each transactions on DEX giving 4% of tax to all holders a rewards.

TOKENOMIC

Total supply = 1,000,000,000 \$ORACLE
DEX Market = 100%

Tax Fees

Every transactions made will be charged 10% buy fees and 10% sell fees.

Fee will be used for :

- 1% goes to the liquidity pool
- 4% goes to holder as an USDT rewards
- 5% goes to marketing wallet for build and developing the project.
